

Water sensor **ABS**

The Point Sensor is a compact sensor for vertical or horizontal mounting.

Water touching its stainless steel probes activates the alarm. The height is adjustable. It is made from robust ABS material to give heavy duty, physical protection and assist fixing and adjustment.

The Point Sensor is used where Detection Cable could be damaged or where some damp, minor wetting or spillage is expected or of little concern.

The sensor can be connected in any number and/or combination with our other sensors.

● Applications

Plant rooms
Solid floor area
Basement/tunnels

● Detection

Activates when any conductive liquid makes contact across the probes.

Multiple re-use.

Instant return to use after water is cleared up.

● Construction

High density plastic body, stainless steel/nickel plated brass probes.

Encapsulation option for immersion proofing.

● Dimensions

Sensor: L101mm x W94mm x H40mm

● Fixing

Base of wall or apparatus.

Floor – fixed direct to floor by slotted fixing holes for easy adjustment.

● System

Connected in any number and/or combination with our other sensors.
