

# Groundhog

The Floodline Groundhog Mk II is a self-contained, single-zone leak detection system which can be mounted vertically or horizontally. It can be connected to any control/building management system that has the facility to accept volt-free contacts.

Additional Floodline Point Sensors or Leak Detection Tape can be slaved off the Groundhog.

## ● Function

Water/Liquid detection

## ● Zone capacity: 1

## ● Power

Multi-voltage operation 12 or 24V AC or DC at 0.8watts

## ● Construction

Built into a stainless steel Guard Plate which provides protection and assists fixing

## ● Dimensions

L130 x W90 x D37 mm

## ● Fixing

Fixed or free-standing on floor or in drip tray  
 Vertically at base of wall or plant

## ● Monitoring

LEAK – continuous water/liquid built-in sensor and aux sensor input  
 SYSTEM FAULT – aux sensor or Leader Cable damage, failure or disconnection

## ● Alarm Indicator

Flashing LEDs for LEAK and SYSTEM FAULT  
 All alarms displayed separately and continuously until corrected and reset if in manual mode

## ● Status Indicator

Power LED

## ● Controls

Manual/Auto reset select  
 Sensitivity setting

## ● Outputs

Leak/system fault – SPCO Relay 1Amp@24Vdc
